## **Information about Copyrighted Content**

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

**NOTICE**  
**WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

**ICPSR CODEBOOK NOTES FOR #36424**  
Annual Arts Basic Survey (AABS), 2015 [United States]

- 1) Users are strongly encouraged to refer the User Guide (produced by the Census Bureau), which contains the supplement questionnaire, as well as additional detailed technical documentation regarding the study design, sampling frame used, and response rates.
- 2) The "Basic CPS Record Layout" section in the User Guide (Attachment 6) contains many **FILLER** variables and a couple **PADDING** variables with column locations. Also, only 1 **FILLER** variable was found in the data that ICPSR received, and ICPSR removed the **FILLER** variable. As a result, the column locations in any ICPSR-released data product (e.g., codebook and setup files) will have column locations that are not consistent with locations described in the User Guide.
- 3) To improve ease of analysis, the width of the data for variables originally containing implied decimals were adjusted so that they now have explicit decimals. The following variables are: **PUERNH1C, PEERNH2, PEERNH1O, PRERNHLY, PRERNWA, PEERN, PUERN2, HWHHWGT, PWFMWGT, PWLGWGT, PWORWGT, PWSSWGT, PWVETWGT, and PWCMPPWGT.**
- 4) Missing values were declared according to the Basic CPS and Supplement Record Layouts. Please note that missing values and their labels for the CPS variables are not the same as the missing values and labels for variables in the AABS Supplement.

ICPSR recoded blanks in numeric variables to -7 and labeled them "Blank (recoded by ICPSR)."

- 5) For this data collection, ICPSR created the **CASEID** variable which is a unique case identifier.
- 6) Variable **HUFINAL** contains two values with duplicate value labels. Users may manipulate the data according to their preferences. The duplicate value labels are: "Other – specify" for values 233 and 248 and "Refused" for values -3 and 218.
- 7) Some variables in this data collection contain undocumented codes. Undocumented codes are labeled as such by ICPSR.
- 8) Extremely long value labels may be truncated for some variables. Please refer to Attachment 6 and Attachment 7 in the User Guide for complete value labels.

Also, please refer to Attachment 9, 10, or 11 in the User Guide for complete value labels for the following variables:

<b>PEIO1ICD</b>	INDUSTRY CODE FOR PRIMARY JOB	<i>Attachment 9</i>
<b>PEIO2ICD</b>	INDUSTRY CODE FOR SECOND JOB	<i>Attachment 9</i>
<b>PEIO1OCD</b>	OCCUPATION CODE FOR PRIMARY JOB	<i>Attachment 10</i>
<b>PEIO2OCD</b>	OCCUPATION CODE FOR SECOND JOB	<i>Attachment 10</i>
<b>GTCBSA</b>	METROPOLITAN CBSA FIPS CODE	<i>Attachment 11</i>
<b>GTCO</b>	FIPS COUNTY CODE	<i>Attachment 11</i>
<b>GTINDVPC</b>	INDIVIDUAL PRINCIPAL CITY	<i>Attachment 11</i>
<b>GTCSA</b>	CSA FIPS CODE	<i>Attachment 11</i>

- 9) Variable labels were added or expanded using information from the Basic CPS and Supplement Record Layouts located in Attachment 6 and Attachment 7, respectively in the User Guide.

### **Variable Description and Frequencies**

**Note:** Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
